For Immediate Release

L-3's ProVision® ATD Security Scanner Receives EU CEP Approval

WOBURN, Mass., January 23, 2013 – L-3 Security & Detection Systems (SDS) today announced that its ProVision® Automatic Target Detection (ATD) checkpoint security scanner has met European standards for security scanners following testing under the European Civil Aviation Conference (ECAC) Common Evaluation Process (CEP). The ProVision ATD is an image-free system.

“Our ProVision ATD system is the first advanced personnel screener to meet the EU standard, an important milestone that enables more travelers to be safely and effectively scanned,” said Thomas M. Ripp, president of L-3 Security & Detection Systems. “This achievement is a direct outcome of L-3’s investment in continuously innovating our technologies to anticipate emerging threats and keep abreast of regulatory requirements.”

L-3’s ProVision ATD system utilizes safe millimeter wave technology to automatically detect potential metallic and non-metallic threats by highlighting any anomalies on a generic mannequin, protecting passenger privacy.

More than 1,000 systems have been procured worldwide with deployments on six continents.

About L-3 Security & Detection Systems

With more than 50,000 systems deployed and supported around the globe, L-3 Security & Detection Systems (SDS) is a leading supplier of security screening solutions. For more than 30 years, L-3 SDS has developed and manufactured cutting-edge products using advanced technologies that include 3-D computed tomography; automated, conventional and high-energy

X-ray; radiation detection; active millimeter wave imaging; metal detection; and energetic trace explosives detection.

L-3 SDS solutions are used by the aviation and transportation industries, regulatory and customs authorities, government and law enforcement agencies, and commercial and other secure facilities. Applications include the screening of people, vehicles, baggage, cargo and packages for explosives, firearms, drugs, contraband and corporate assets. To learn more about L-3 SDS, please visit the company's website at www.L-3com.com/sds.

About L-3 Communications

Headquartered in New York City, L-3 employs approximately 51,000 people worldwide and is a prime contractor in C³ISR (Command, Control, Communications, Intelligence, Surveillance and Reconnaissance) systems, aircraft modernization and maintenance, and national security solutions. L-3 is also a leading provider of a broad range of electronic systems used on military and commercial platforms. To learn more about L-3, please visit the company's website at www.L-3com.com.

Safe Harbor Statement Under the Private Securities Litigation Reform Act of 1995

Except for historical information contained herein, the matters set forth in this news release are forward-looking statements. Statements that are predictive in nature, that depend upon or refer to events or conditions or that include words such as "expects," "anticipates," "intends," "plans," "believes," "estimates," "will," "could" and similar expressions are forward-looking statements. The forward-looking statements set forth above involve a number of risks and uncertainties that could cause actual results to differ materially from any such statement, including the risks and uncertainties discussed in the company's Safe Harbor Compliance Statement for Forward-Looking Statements included in the company's recent filings, including Forms 10-K and 10-Q, with the Securities and Exchange Commission.
