L-3 to Provide X-Ray Scanning Solutions for the Indonesian Ministry of Transportation

WOBURN, Mass., April 30, 2014 – L-3 Security & Detection Systems (L-3 SDS) announced today that it has received an order to provide the Ministry of Transportation (MOT), Republic of Indonesia, with a wide range of X-ray scanners to enhance security operations.

These systems will be used to examine carry-on baggage, checked baggage and freight, and will assist operators in the detection of explosives, weapons and contraband.

“We are very pleased that the Indonesian MOT has selected our advanced X-ray systems for use at numerous locations throughout the country,” said Thomas M. Ripp, president of L-3 Security & Detection Systems. “Our team is committed to working closely with the MOT to provide the solutions it needs for today’s security challenges, with a focus on anticipating future requirements.”

L-3 SDS designs equipment for shipments of varied sizes and applications. With more than 30 years of experience, L-3 offers scanning inspection systems for break-bulk, skids, pallets and ULDs, subject to regulatory requirements. L-3’s equipment screens cargo ranging from containers of fruits and vegetables to electronics, and is currently in operation at shipping, forwarding and certified cargo screening facilities (CCSF) worldwide.

About L-3 Security & Detection Systems

With more than 50,000 systems deployed and supported around the globe, L-3 Security & Detection Systems (L-3 SDS) is a leading supplier of security screening solutions. For more than 30 years, L-3 SDS has developed and manufactured cutting-edge products using advanced technologies that include 3-D computed tomography; automated, conventional and high-energy X-ray; radiation detection; active millimeter wave imaging; metal detection; and energetic trace explosives detection.

L-3 SDS solutions are used by the aviation and transportation industries, regulatory and customs authorities, government and law enforcement agencies, and commercial and other secure facilities. Applications include the screening of people, vehicles, baggage, cargo and packages for explosives, firearms, drugs, radiation, contraband and corporate assets.

About L-3

Headquartered in New York City, L-3 employs approximately 48,000 people worldwide and is a prime contractor in aerospace systems and national security solutions. L-3 is also a leading provider of a broad range of communication and electronic systems and products used on military and commercial platforms. The company reported 2013 sales of \$12.6 billion.
